Profile

Applied microeconomist combining OECD policy delivery, doctoral-level econometric depth from the Toulouse School of Economics, and private-sector analytical rigour from competition economics. Lead analyst on firm-level data linking entrepreneurship, start-ups and scale-ups across major commercial and administrative databases. Produces evidence used in OECD outputs and European Commission projects, with growing ownership of complex quantitative workstreams.

Professional experience

OECD, STI Directorate, Productivity, Innovation and Entrepreneurship Division **Paris, France**
Junior Economist *Mar 2025 – Present*

- Produce economic and econometric analysis on entrepreneurship, business dynamics and innovation, turning large firm-level datasets into policy-relevant evidence for OECD outputs.
- Build and validate cross-country micro-databases, integrating commercial and administrative sources and designing analytical frameworks used across projects.
- Co-author OECD working papers and deliver analytical outputs to partner organisations, including the European Commission.
- Present findings to intergovernmental and expert audiences, including the Working Party on Industry Analysis (WPIA), and engage member-country delegates, national authorities and external data providers.
- Own complex quantitative workstreams end to end, coordinating across co-authors and directorates to deliver under deadline.
- Share methods across the team, including an internal training session on causal inference.

Analysis Group **Brussels, Belgium**
Associate *Sep 2023 – Feb 2025*

- Conducted and directed econometric and statistical analysis for antitrust, competition and litigation matters, delivering quantitative evidence used in expert reports.
- Coordinated analytical workstreams and supervised junior staff, allocating tasks and reviewing outputs under tight litigation deadlines.
- Worked with large, complex datasets and presented findings to case teams and clients.

OECD, Skills and Employability Division **Remote**
External Consultant *Jan – Apr 2022*

- Analysed online job-posting data to measure skill demand across occupations.
- Developed methodologies linking jobs and skills, contributing to the Skill Shortage Index.

Education

Toulouse School of Economics **Toulouse, France**
PhD in Economics *2018–2023*

Toulouse School of Economics **Toulouse, France**
MSc in Economic Theory and Econometrics *2016–2018*

Universidad de Costa Rica **San José, Costa Rica**
BSc in Economics *2011–2014*
